

Angels and the DNA Spiral

An Invitation to meet the
Angel of the Sun – Light of the World
Angel of the Moon – Pearl Mother of Wisdom
Angel of the Earth – The Sacred Vine of Life
With
Diana Summer

In this workshop you are invited to meet and commune with the teachings of :

The Angel of the Sun: The light of the world shining forth rays of hope, happiness, warmth, and light.

The Angel of the Moon – her mysteries and hidden gifts as her light adorns the night sky

The Angel of the Earth – in her attire as the sacred vine that is full of wisdom knowledge and truth.

We will prepare by releasing all our heavy energy, becoming the hollow bone through which we may hear, see, touch, sense and know the beauty and strength of these ancient and wise teachers, bringing forth their wisdom for each of us to discover our place and play our part in our every day lives.

We will be meditating, using sacred sound chants to call them forth, working individually and as a group to experience the DNA energies and awakening skills that have been moribund, now ready to blossom. A message will be given to each participant during the day from the Angelic resonance through Diana. You are invited to bring a crystal, jewellery or something similar to be blessed by the energies.
