

*An Evening with
White Arrow - A Spirit Guide
& His Friends
with
Diana Summer*

White Arrow is a Native American Spirit Guide who is working with Diana to bring forth messages that are pertinent for this point in time.

His objective is to stir us into action now in order that we may take this opportunity of the reprieve offered to us by the Divine to save our beautiful world. The rainforests are so important, it is imperative that we do our utmost to bring this not only into our own awareness but those of friends etc extending to our World Leaders.

During the evening we will be calling in White Arrow and his friends, journeying to meet him to receive the words of wisdom that he will pass on to us. He is gentle, kind, understanding and yet strong and firm in his resolve to awaken us into being.

Through chant and sacred song, we will move into meditation engaging in the flow of the living river of love that is available to us all. There will be messages passed and channelling given so that all will feel his presence, through the sacred senses that we live and breath.

Please come along and join the gathering of souls needed to receive the seeds of knowledge that may be given the chance to grow, that we may shine our light into our most precious world, our earth.
